Royal Chemical Hires New Sales Operation Problem Solving Supervisor

TWINSBURG, OH – (March XX, 2014) – Royal Chemical has announced the hiring of Izolda Fetko as its newest Sales Operation Problem Solving Supervisor (SOPS). Fetko, originally from Serbia, comes to Royal Chemical with a master’s degree in industrial engineering management and a masters of arts in security policy studies from Notre Dame College.

“I am excited to start a new career with a highly respected and well-run company like Royal Chemical,” Fetko said. “I think I can bring even more energy and help our company continue to be successful. I can already tell it has a great group of people moving in the right direction.”

In her new role, Fetko will manage the day to day Sales Operation including running the NPC Process such as daily meetings, Pricing, CRM, and Sales Analysis.

Prior to joining Royal Chemical, Fetko served as the administration and research analyst for Talis Clinical, LLC. While there, she had a number of responsibilities including research, grant writing, regulatory documentation control, human resources administration and more. She earned master’s degrees at Notre Dame College and the University of Technical Sciences in Novi Sad, Serbia. She also has a bachelor’s in economics from Serbia’s Alpha University.

Fetko lives in Sagamore Hills with her husband. She speaks four languages and is a decorated athlete in water polo, including nine Serbian national championships and national cup, and was a 2006 European Championship participant and European Cup qualifier.

“I know Izolda, or as we call her, ‘Z,’ will be a strong member of our team here at Royal Chemical,” said COO Brian McCue. “She is a meticulous employee who loves to be challenged and performs well under pressure. We’re glad to have her on board and look forward to seeing her help our company go even further.”
