Royal Chemical Joins Society of Chemical Manufacturers and Affiliates, Inc.

TWINSBURG, OH – (Feb. 4, 2014) – Royal Chemical, a company specializing in custom chemical blending, toll blending and chemical manufacturing, recently became a member of the Society of Chemical Manufacturers and Affiliates, Inc (SOCMA). SOCMA is the only U.S. based trade association solely dedicated to the batch, custom and specialty chemical industry.

“This is a big step forward for our company,” said CEO Dan Zelman. “Joining SOCMA opens the door to new opportunities nationwide for our business. We will be part of a major network of chemical companies that will expand our horizons on a large scale thanks to its programs that maximize networking and commercial opportunities.”

SOCMA establishes industry leadership and will provide networking opportunities for Royal Chemical through an expanded market of chemical manufacturers and affiliates. SOCMA also updates chemical companies on the latest federal laws and regulations facing the industry.

“Joining SOCMA allows us to keep our fingers on the pulse of the chemical industry through their advocacy on behalf of organizations like ours,” said COO Brian McCue. “We wanted to align and associate with an authority in our area of business to join the ranks alongside the leaders of the chemical manufacturing industry.”
