

# PACKAGING FAQS FOR ROYAL CHEMICAL

### **Q: What types of packaging services does Royal Chemical offer?**

A: Royal Chemical provides packaging services for both liquid and powdered chemical products. This includes filling anything from small bottles to large tanker trucks based on client specifications.

### **Q: Can you accommodate custom packaging requirements?**

A: Yes, we can accommodate various custom packaging requirements. Whether you need specific bottle sizes, labeling, or bulk packaging, we can tailor our services to meet your needs.

### **Q: Do you provide labeling services?**

A: Yes, we offer comprehensive labeling services as part of our packaging solutions. We can apply client-provided labels or help design and produce labels that meet your specifications.

### **Q: What is the minimum order quantity for packaging services?**

A: The minimum order quantity varies depending on the type of product and packaging required. Please contact us with your specific needs for a detailed quote.

### **Q: How do you ensure the quality of packaged products?**

A: We follow stringent quality control protocols to ensure that all packaged products meet the highest standards. Our processes include regular inspections, testing, and adherence to client specifications to guarantee consistency and quality.

### **Q: Can you handle hazardous materials?**

A: Yes, Royal Chemical is equipped to handle hazardous materials. Our facilities comply with all relevant safety and regulatory requirements to ensure safe packaging and handling of hazardous substances.

### **Q: What kind of turnaround time can I expect for packaging services?**

A: Turnaround times vary depending on the complexity and scale of the project. We strive to complete most orders within one business day, thanks to our strategically located facilities across the US.

### **Q: Do you offer warehousing and fulfillment services in addition to packaging?**

A: Yes, we offer comprehensive warehousing and fulfillment services. With 250,000 sq. feet of warehouse space, we can store your products and manage your inventory, ensuring timely shipment and delivery.

### **Q: How does Royal Chemical handle the logistics of shipping packaged products?**

A: We have partnerships with trusted freight providers to manage the delivery of your products. Our logistics team ensures that your products are shipped efficiently and arrive on time.

### **Q: Can I track my shipment?**

A: Yes, we provide shipment tracking for all orders. Once your products are shipped, you will receive tracking information to monitor the delivery status.

### **Q: What industries do you serve with your packaging services?**

A: Royal Chemical serves a wide range of industries including cleaning products, agrochemical, oil and gas, chemical distribution, and metal cleaning. Our packaging services are designed to meet the specific needs of each industry.

### **Q: How do I get started with Royal Chemical's packaging services?**

A: To get started, contact one of our chemical experts to discuss your packaging needs. We will work with you to develop a plan that meets your requirements and ensures a seamless process from production to distribution.

### **Q: Do you have a packaging catalog available?**

A: Yes, we offer a comprehensive packaging catalog that details all our packaging options and services. You can view the catalog [here](#).
